Administrators Visit 5-21-14 WQS Summary Final.docx

fyi - Here is a one-page briefing for the Administrator primarily on the topic of WA human health criteria rulemaking and fish consumption rates.

Hi Kendra,
Here is the WQS “one-pager” (I shaved off a page!). I wasn’t sure where to put the tribal interest section (since its related but a little off-topic for the Governor discussion) but thought we’d add it to this paper in case tribal leaders ask her about it. And here’s the recent op-ed piece related to fish consumption. Let me/Matt know if you have any questions, thanks.

All-
As a reminder, please keep hot issues documents to one page.

Thank you!
Kendra

Subject: List of background documents needed for the Administrator's Trip to the Region

Again, thank you all for your patience as we begin to fill in the details of the Administrator's trip Thursday and Friday. Below is the list of Hot issues that we want to provide the Administrator before her trip as well as the briefing document. I have to turn all materials in to HQ by tomorrow by 3:00 EST, HOWEVER I am asking to extend the time to 6:00 PM EST. If you can have all documents to me by 12:00 tomorrow, I will be able to pull everything together in one package for HQ. If you don't think you will be able to get me any documents by the deadline, please send me an email and we can work something out. Please let me know if I missed any key hot issues or if you have any questions or concerns. Tim also needs information for the Administrator's All Staff talking points. He will follow up separately on those details.

Office of Water

WQS

TRAR

CZARA

Puget Sound

Columbia River Toxics (tentative, depending on tribal meeting)

Bristol Bay

AWT

SGL facility in Moses Lake

ETPA

Coal Terminals

Ocean Acidification Task Force (Note: I will pull the information and send to David for his review and any additions)
